

The Bureau of Internal Revenue is pleased to announce ...

Online Clearance by Credit Card and Tax Exempt 721VIs are now available for Excise Tax.

Effective May 20th 2016, taxpayers will now have the ability to, not only prepare and submit their 721 VI tax returns online, but to securely finalize the clearance process by **MAKING PAYMENTS** online as well.

How will it work:

1. Any registered user of ExciseWeb will be able to complete the clearance process and pay online.
2. From within the ExciseWeb portal, a taxpayer will create & submit any 721 (Tax Returns) they would like to pay by credit card or that are considered non-taxable.
3. Once submitted, an Excise Tax Officer will review the 721 (Tax Return) and if there are no problems, they will APPROVE the return for clearance.
4. The taxpayer will then receive an alert in their ExciseWeb messaging center informing them that there are 721s ready for clearance.
5. The taxpayer will select the 721s they intend to finish the clearance process.
6. The taxpayer will be routed to the verified payment provider where they will be prompted for credit card information in order to finalize the clearance.
 - a. For tax exempt 721s, the clearance will complete the transaction.

- ✓ Visa and MasterCard are acceptable cards
- ✓ Receipts will be provided upon payment completion
- ✓ **No fee for your online payments!**
- ✓ Quick, easy and most importantly, **SECURE**
